Annual Financial Statements for the year ended 28 February 2025

Director's Responsibilities and Approval

The director/s is required by the Companies Act of South Africa to maintain adequate accounting records and are responsible for the content and integrity of the annual financial statements and related financial information included in this report. It is their responsibility to ensure that the annual financial statements satisfy the financial reporting standards with regards to form and content and present fairly the statement of financial position, results of operations and business of the company, and explain the transactions and financial position of the business of the company at the end of the financial year. **The annual financial statements are based upon appropriate accounting policies consistently applied throughout the company and supported by reasonable and prudent judgements and estimates.**

The director/s acknowledge that they are ultimately responsible for the system of internal financial control established by the company and place considerable importance on maintaining a strong control environment. To enable the director/s to meet these responsibilities, the director/s set standards for internal control aimed at reducing the risk of error or loss in a cost effective manner. The standards include the proper delegation of responsibilities within a clearly defined framework, effective accounting procedures and adequate segregation of duties to ensure an acceptable level of risk. These controls are monitored throughout the company and all employees are required to maintain the highest ethical standards in ensuring the company's business is conducted in a manner that in all reasonable circumstances is above reproach.

The focus of risk management in the company is on identifying, assessing, managing and monitoring all known forms of risk across the company. While operating risk cannot be fully eliminated, the company endeavours to minimise it by ensuring that appropriate infrastructure, controls, systems and ethical behaviour are applied and managed within predetermined procedures and constraints.

The director/s is of the opinion, based on the information and explanations given by management, that the system of internal control provides reasonable assurance that the financial records may be relied on for the preparation of the annual financial statements. However, any system of internal financial control can provide only reasonable, and not absolute, assurance against material misstatement or loss. The going-concern basis has been adopted in preparing the financial statements. Based on forecasts and available cash resources the director/s has no reason to believe that the company will not be a going concern in the foreseeable future. The financial statements support the viability of the company.

The annual financial statements set out on **pages 8 to 19**, and the supplementary information **set out on page 20-23** which have been prepared on the going concern basis, need to be approved by the director and signed on **15 February 2026** on their behalf by:

Clyle Kemm
Director of Build X Hardware and Buildware CC

BUILD X HARDWARE AND BUILDWARE CLOSE CORPORATION

(Registration Number 2000 / 027067 / 23)
Annual Financial Statements for the year ended 28 February 2025

Directors' Report

The director presents their report for the year ended **28 February 2025**.

1. **Review of activities**
   Main business and operation
   The company specialize in Retail Services and Supply of goods.
   There were no major changes herein during the year.

   The operating results and statement of financial position of the company are fully set out in the attached financial statements and do not in our opinion require any further comment.

2. **Going concern**
   The annual financial statements have been prepared on the basis of accounting policies applicable to a going concern. This basis presumes that funds will be available to finance future operations and that the realisation of assets and settlement of liabilities, contingent obligations, and commitments will occur in the ordinary course of business.

   The director/s draw attention to the statement of changes in equity in the annual financial statements which indicates that the company incurred a **NETT PROFIT OF R1 990 980.00** during the year ended **28 February 2025**, and as of that date, the conditions indicate the existence of certainty which may cast non-doubt about the company's ability to continue as a going concern. At this stage company's trading shows no reason to doubt going concern and does not foresee any foreclosure within the future.

3. **Events after reporting date**
   All events subsequent to the date of the annual financial statements and for which the applicable financial reporting framework requires adjustment or disclosure have been adjusted or disclosed.

   The director/s is not aware of any matter or circumstance arising since the end of the financial year to the date of this report that could have a material effect on the financial position of the company.

4. **Authorised and issued share capital**
   No changes were approved or made to the authorised or issued share capital of the company during the year under review.

5. **Dividend**
   No dividend was declared or paid to the shareholder during the year.

6. **Directors**
   The directors of the company during the year and up to the date of this report are as follows:
   - **CLYLE KEMM**

Report of the Compiler

To the Director/s of BUILD X HARDWARE AND BUILDWARE CLOSE CORPORATION

We have compiled the accompanying financial statements of **BUILD X HARDWARE AND BUILDWARE CLOSE CORPORATION** based on information you have provided. Accounting program SAGE ONLINE ACCOUNTING EDITION and physical paper files were used to compile the financial statements. These financial statements comprise the statement of financial position as at 28 February 2025, the statement of comprehensive income and the statement of changes in equity for the year then ended, and a summary of significant accounting policies and other explanatory information. The accounting documents was provided by the director of the company in the form of paper boxes and physical paper files documents. Adjustments were made according to accounting policies to these reports on the basis that all information and accounting are accounted for in preparing these financial statements. Notes pertaining to the paper trail files were made upon comparison on SAGE ONLINE ACCOUNTING EDITION, actual information on the invoices, proof of payments and other documents provided. Should an audit be performed/ be needed on the company ZL Accounting and Tax Services (Pty)Ltd takes no responsibility for the incorrect paperwork within these files provided by the client.

We performed this compilation engagement in accordance with International Standard on Related Services 4410 (Revised), Compilation Engagements.

We have applied our expertise in accounting and financial reporting to assist you in the preparation and presentation of these financial statements in accordance with the International Financial Reporting Standard for Small and Medium-sized Entities and the requirements of the Companies Act of South Africa. We have complied with relevant ethical requirements, including principles of integrity, objectivity, professional competence and due care.

These financial statements and the accuracy and completeness of the information used to compile them are your (the client) responsibility.

ZL Accounting and Tax Services (Pty)Ltd does not take any responsibility if the accounting information provided to compile these financial statements were incorrect.

Since a compilation engagement is not an assurance engagement, we are not required to verify the accuracy or completeness of the information you provided to us to compile these financial statements. Accordingly, we do not express an audit opinion or a review conclusion on whether these financial statements are prepared in accordance with the International Financial Reporting Standard for Small, Medium and Micro-sized Entities.

Accounting Policies

1.General information

BUILD X HARDWARE AND BUILDWARE CLOSE CORPORATION ('the company') specialize in Retail Services and Supply of goods.

The company is incorporated as a **CLOSE CORPORATION** and domiciled in South Africa. The address of its registered office is 127 Kerk street, Fochville, Fochville, Gauteng, 2515

2. Basis of preparation and summary of significant accounting policies

The financial statements of **BUILD X HARDWARE AND BUILDWARE CLOSE CORPORATION** ('the company') have been prepared in accordance with the International Financial Reporting Standard for Small, Medium and Micro sized Entities and the Companies Act of South Africa. The financial statements have been prepared under the historical cost convention, as modified by the revaluation of investment property, certain property, plant and equipment, biological assets and derivative financial instruments at fair value. They are presented in South African Rand.

The preparation of financial statements in conformity with the International Financial Reporting Standard for Small, Medium and Micro sized Entities requires the use of certain critical accounting estimates. It also requires management to exercise its judgement in the process of applying the company's accounting policies. The areas involving a higher degree of judgement or complexity, or areas where assumptions and estimates are significant to the financial statements are disclosed in the notes. The principal accounting policies applied in the preparation of these annual financial statements are set out below.

2.1 Computer Equipment, Office Equipment, Machinery and Company Vehicles

Computer Equipment, Office Equipment, Machinery and Company Vehicles is stated at historical cost less accumulated depreciation and any accumulated impairment losses. Historical cost includes expenditure that is directly attributable to bringing the asset to the location and condition necessary for it to be capable of operating in the manner intended by the directors.

The company adds to the carrying amount of an item of **Computer Equipment, Office Equipment, Machinery and Company Vehicles** the cost of replacing parts of such an item when that cost is incurred if the replacement part is expected to provide incremental future benefits to the company. The carrying amount of the replaced part is derecognised. All other repairs and maintenance are charged to profit or loss during the period in which they are incurred.

Depreciation on other assets is charged to allocate the cost of assets less their residual value over their estimated useful lives, using the straight-line method. The estimated useful lives range as follows:

Asset class	Useful life / depreciation rate
Computer Equipment @ Cost	3 Years
Office Equipment @ Cost	3 Years
Company Vehicles @ Cost	5 Years
Machinery @ Cost	5 Years
Furniture and Fittings @ Cost	N/A
Plant and Equipment @ Cost	5 Years

The assets' residual values, useful lives and depreciation methods are reviewed, and adjusted prospectively if appropriate, if there is an indication of a significant change since the last reporting date.

An asset's carrying amount is written down immediately to its recoverable amount if the asset's carrying amount is greater than its estimated recoverable amount.

Gains and losses on disposals are determined by comparing the proceeds with the carrying amount and are recognised within 'other gains / (losses)' in the statement of comprehensive income.

Accounting Policies

Basis of preparation and summary of significant accounting policies continued...

2.2 Financial instruments

Trade and other receivables
Trade receivables are recognised initially at the transaction price. They are subsequently measured at amortised cost using the effective interest method, less provision for impairment. A provision for impairment of trade receivables is established when there is objective evidence that the company will not be able to collect all amounts due according to the original terms of the receivables.

Trade and other receivables are classified as debt instruments and loan commitments at amortised cost.

Cash and cash equivalents
Cash and cash equivalents includes cash on hand, demand deposits and other short-term highly liquid investments with original maturities of three months or less. Bank overdrafts are shown in current liabilities on the statement of financial position.

Trade and other payables
Trade payables are recognised initially at the transaction price and subsequently measured at amortised cost using the effective interest method.

2.3 Tax
The tax expense for the year comprises current and deferred tax. Tax is recognised in profit or loss, except that a change attributable to an item of income or expense recognised as other comprehensive income is also recognised directly in other comprehensive income.

The current income tax charge is calculated on the basis of tax rates and laws that have been enacted or substantively enacted by the reporting date in the countries where the entity operates and generates taxable income.

Deferred income tax is recognised on temporary differences arising between the tax bases of assets and liabilities and their carrying amounts in the financial statements and on unused tax losses or tax credits in the entity. Deferred income tax is determined using tax rates and laws that have been enacted or substantively enacted by the reporting date.

The carrying amount of deferred tax assets are reviewed at each reporting date and a valuation allowance is set up against deferred tax assets so that the net carrying amount equals the highest amount that is more likely than not to be recovered based on current or future taxable profit.

2.4 Revenue
Revenue is measured at the fair value of the consideration received or receivable. Revenue is shown net of value-added tax, returns, rebates and discounts.

Revenue from the sale of goods is recognised when:

- significant risks and rewards of ownership of the goods have been transferred to the buyer;
- the entity retains neither continuing managerial involvement to the degree usually associated with ownership nor effective control over the goods sold;
- the amount of revenue can be measured reliably; and
- it is probable that the economic benefits associated with the transaction will flow to the entity; and
- the costs incurred or to be incurred in respect of the transaction can be measured reliably.

Accounting Policies

Basis of preparation and summary of significant accounting policies continued...

When the outcome of a transaction involving the rendering of services can be estimated reliably, revenue associated with the transaction is recognised by reference to the stage of completion of the transaction at the end of the reporting period. The outcome of a transaction can be estimated reliably when all the following conditions are satisfied:

- the amount of revenue can be measured reliably; and
- it is probable that the economic benefits associated with the transaction will flow to the entity; and
- the stage of completion of the transaction at the end of the reporting period can be measured reliably; and
- the costs incurred for the transaction and the costs to complete the transaction can be measured reliably.

When the outcome of transactions involving the rendering of services cannot be estimated reliably, revenue is recognised only to the extent of the expenses recognised that are recoverable.

The stage of completion of a transaction may be determined by a variety of methods, depending on the nature of the transaction:

- surveys of work performed;
- services performed to date as a percentage of total services to be performed;
- the proportion that costs incurred to date bear to the estimated total costs of the transaction. Only costs that reflect services performed to date are included in costs incurred to date. Only costs that reflect services performed or to be performed are included in the estimated total costs of the transaction.

Interest income is recognised using the effective interest method.

Rental income from investment property that is leased to a third party under an operating lease is recognised in the statement of comprehensive income on a straight-line basis over the lease term and is included in 'other income'.

Dividend income is recognised when the company's right to receive payment has been established and is shown as 'finance income'.

Royalties are recognised on an accrual basis in accordance with the substance of the relevant agreement.

3. Critical accounting estimates and judgements

Estimates and judgements are continually evaluated and are based on historical experience and other factors, including expectations of future events that are believed to be reasonable under the circumstances.
